Subject: RE: Cat Canyon AE to EPA - EPA comments
Attachments: Cat Canyon Questions .docx

Good afternoon Jeff,

We have completed our preliminary review of the draft Cat Canyon AE package. Attached are our questions and comments. Please let me know if you would like to discuss.

As mentioned at the monthly coordination meeting yesterday, there is a possibility that an EPA representative will be attending the public meeting and making a short presentation. Please continue to coordinate with EPA on the plans for the meeting.

Thanks.

Michele Dermer
Drinking Water Protection Section

Subject: Cat Canyon AE to EPA

Good Morning,

The following link contains the Cat Canyon aquifer exemption application. A hard copy has been sent via overnight mail to EPA's San Francisco office in care of Michele Dermer. Please let me know if you have any questions, or if there is anything else I can do to help facilitate your preliminary review of this application.
